REAL ESTATE DEVELOPMENTS

## Project Brochure

Placeholder document for the staging site.

## About this file

This is a placeholder brochure supplied so the Download PDF button on the single project page has something real to serve.

To replace it, edit any Project in wp-admin and upload the genuine brochure to the "Brochure (PDF)" field. Each project can carry its own file.

If a project has no brochure attached, the button falls back to the browser's print-to-PDF so it is never a dead control.
